# A LEADER IN ENERGY MANAGEMENT SOLUTIONS

A trusted name in electrical energy management solutions for almost 150 years, BRUSH utilises its significant in-house experience and expertise to deliver a range of critical infrastructure solutions.

Our teams combine deep engineering expertise with bold thinking to deliver solutions that meet the demands of today's energy network.

## TRANSFORMERS

Our proven designs are used in critical infrastructure projects, providing clients with a trusted, high quality, performance-driven solution.

Installed in some of the world's most demanding applications, our transformers are designed and built by our UK based engineering experts, using quality materials and to our exacting standards.

## OUR LOCATIONS

# BUILT TO LAST. DELIVERED FAST

**FastWorks** from BRUSH Transformers, is an expertly engineered range of pre-configured transformers, designed for rapid deployment.

Available in 33kV and 132kV variants, **FastWorks** eliminates the need for additional engineering, reducing build time and delivering optimised models, suitable for a wide range of critical infrastructure projects.

Built to meet regulatory standards, **FastWorks** has been designed to significantly reduce lead times while never compromising on quality, safety, or performance.

- Available in 33kV and 132kV options
- Rapid delivery
- Designed for the UK grid
- Tier 2 compliant
- IEC 60076

**FastWorks is suitable for a wide range of projects, including:**

IDNOs

Renewable

Industrial

ICPs

Commercial

DESIGNED AND  
MANUFACTURED  
IN THE UK
